Further details:

And Non Standard Timings

Playing of recorded music through the premises own sound system with limiters installed which will mean that amplified noise will only be delivered to certain areas of the premises at limited levels with virtually no noise spillage into other areas of the premises or noise breakout from the property. System will allow for different styles of music in different areas of the premises allowing some areas to be noticeably quieter 'chill out' areas. The sound system will be installed and the limiters set to comply with the Noise Impact Assessment, which is submitted as part of this application, which concluded that there would be no less of amenity to the nearest noise sensitive premises by operation of the sound system. The limiters will be set to ensure that amplified noise is inaudible at the facade of the nearest noise sensitive premises which has been established to be in Skinner Street (please see Noise Impact Assessment and Operating Schedule). Amplified music will only ever be a background level before 19.00. The amplification of all music will be automatically silenced if the fire alarm system is activated.
